Georg Gerster

*Iran through the eyes of Homam
Persia from above*

Opening of the exhibition
Friday, 16th September, 2016

at 4 pm

Niavaran Cultural Center, Tehran

In the nineteen seventies the Swiss photographer Georg Gerster had the rare opportunity to view the entire country through the eyes of Homam, ancient Persia's mythical bird. For the first time he shows the results - a unique body of work. This exhibition will remain in Iran for good as Gerster's return gift.
