

# GENEVA CONFERENCE ROOM

• La Dôle  
• 1675m

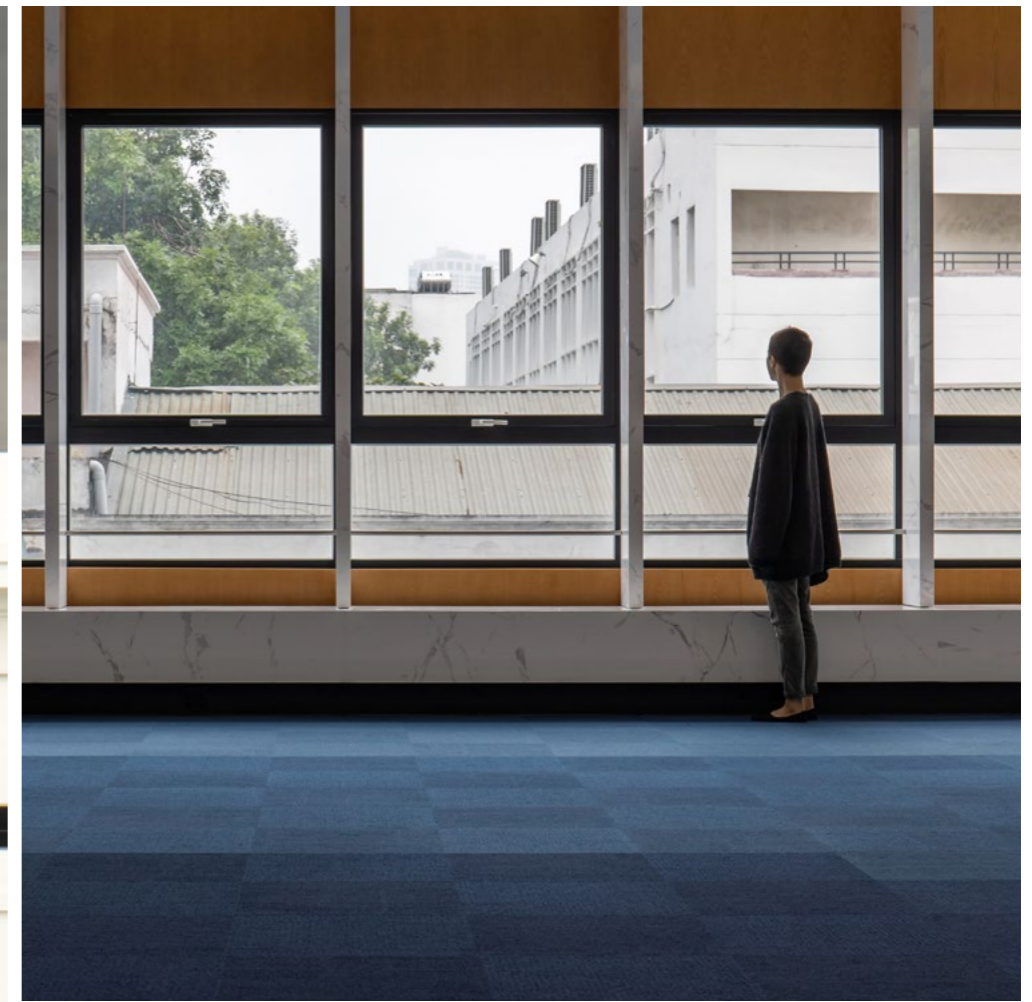

# CONCEPT

Designed in collaboration with the Embassy of Switzerland in Vietnam, the Geneva Conference Room was created 2021, in celebration of the 50 years of diplomatic relations between Vietnam and Switzerland. The space was offered by the Swiss Government as a gift to the Diplomatic Academy of Vietnam - DAV in Hanoi.

# COLLABORATION

Switzerland was one of the first western countries to establish diplomatic relations with Vietnam. The Geneva Conference Room acts as a materialization of the connection between Geneva as Europe's "capital" of multilateral diplomatic and the DAV as Vietnam's innovative teaching center for diplomacy and international relations.

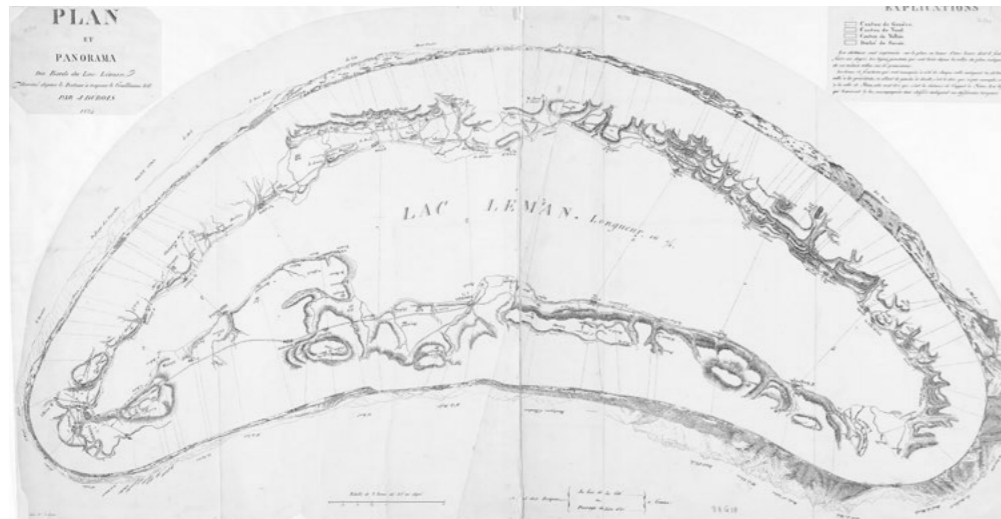

Symbolic of the strong relations nurtured since October 1971, the conference room is found on the newly constructed campus of the Diplomatic Academy of Vietnam. This public research university is known as a prestigious institution, the training ground for future diplomats, leaders, civil servants, journalists and business executives.

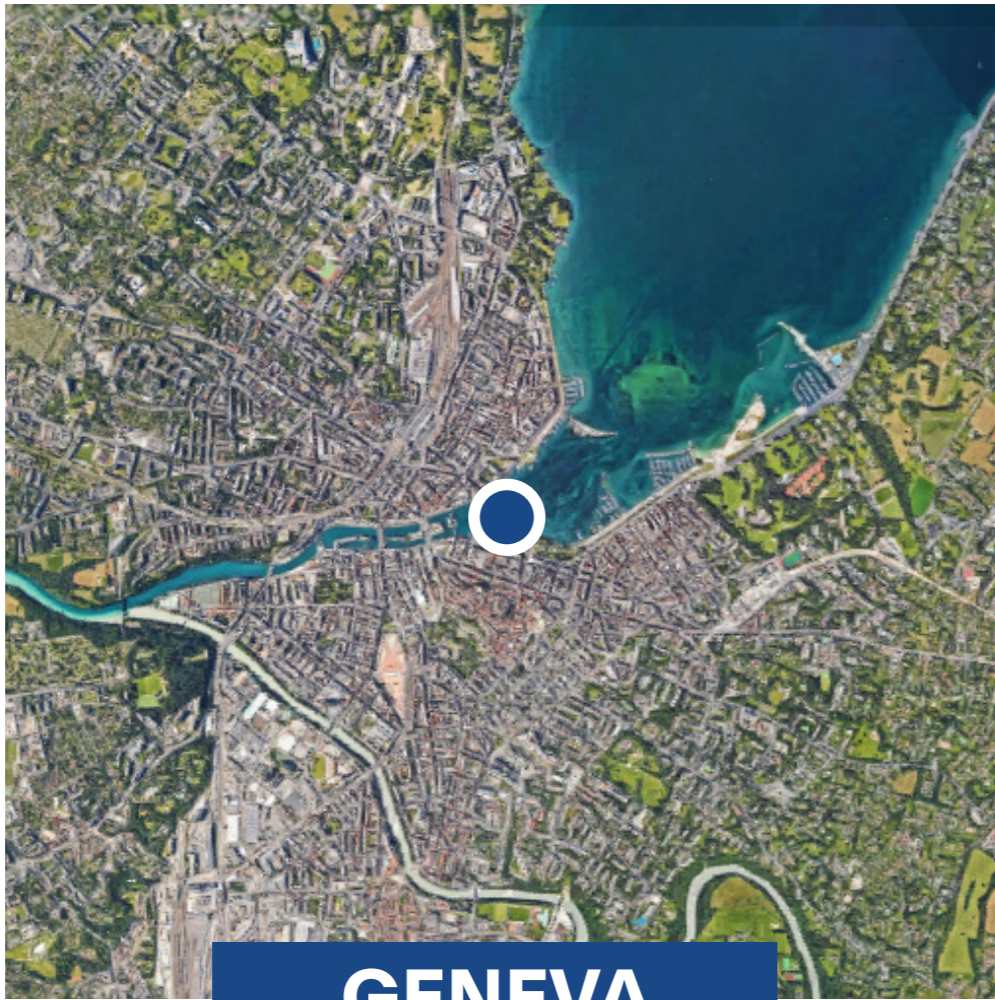

# DESIGN

The space of 250m<sup>2</sup> is intended to house up to 100 people, attendees of presentations, educational workshops and events. The crisp color scheme, homogenous lighting and use of smooth stone are reminiscent of frosty alpine winters, transporting the user straight to Geneva. The Alps' mountainscape replicated on the panoramic bay windows are adjusted in order to replicate the 360° view one would experience if standing on the South edge of one of Switzerland's most symbolic lakes. Depictions of Le Crozat, Mont Tendre, Grand Cret and of course Mont Blanc to the East conceptually unite and immerse the viewers.
