

## Advice Lines and COVID-19 Websites in English & Japanese

The Japanese authorities have established consultation centres in local public health centres throughout Japan. Japan's Ministry of Health, Labour and Welfare (MHLW) has advised that those in Japan with symptoms of COVID-19 should contact these consultation centres ([link here to more details](#)) in order to receive appropriate advice, including on accessing medical facilities if required.

In cases where consultation centres have limited or no English-language support available, there are some additional resources for foreign nationals which may be useful. A number of Prefectures have published dedicated information on COVID-19 in English on their websites, with some others only having machine translation available. There are also some Prefectural and other international resident advice lines which may also be contacted for general advice and in some cases, assistance with interpretation. We have listed some of these below in case helpful. Please note that we cannot guarantee some of these advice lines will have the capacity to assist in English at all times.

For English-language assistance, including on finding medical facilities or support in relation to COVID-19, please note that the Japan National Tourism Organization (JNTO) operates a 24hr hotline: **050-3816-2787**. You can also view their information on accessing medical facilities at the following link: [https://www.jnto.go.jp/emergency/eng/mi\\_guide.html](https://www.jnto.go.jp/emergency/eng/mi_guide.html)
