Introduction

SDC's Evaluation and Corporate Controlling Division (E+C) publishes annually a compilation of the completed evaluations in the whole of SDC as an inventory in English language.

Evaluations at the SDC serve three interrelated purposes: to increase learning, to improve the effectiveness and efficiency of development cooperation, and to enhance its accountability and transparency towards the public. This inventory is in line with the Art. 170 of the Swiss Constitution, which requires that the Federal Offices of the Swiss Government regularly evaluate the effectiveness of their activities.

The present inventory of SDC's evaluation activities conducted in 2017 lists the evaluated topics, programmes or projects according to the responsible department and division.

SDC differentiates its evaluation activities between the commissioning entities:

Evaluations commissioned by Evaluation and Corporate Controlling Division are mandated by SDC's senior management. As E+C stands outside of operational management, these evaluations address strategic questions relevant for the institution. Primarily summative in nature they aim to determine the effectiveness of SDC's measures on outcome and impact level. In most of these evaluations processes, an internal learning group accompanies the process in order to enhance learning and the implementation of agreed recommendations. SDC's Directorate is committed to follow-up actions according to its Management Response.

Evaluations commissioned and mandated by the operational units at head office or in the Swiss cooperation offices abroad are primarily formative in nature. They focus on improving performance by analysing the factors contributing to or hindering the achievement of intended goals. The concerned SDC management for the context of the evaluation commits to implement recommendations in follow-up phases or to capitalise on insights in its thematic learning.

For all evaluations, SDC adheres to the OECD DAC principles for evaluation, the standards of the Swiss Evaluation Society (SEVAL) and those established by the Active Learning Network for Accountability and Performance in Humanitarian Action (ALNAP). Evaluations commissioned by E+C are conducted by external evaluators without conflicts of interest.

[SDC's Evaluation Policy](#) dated March 2018 provides further information on SDC's evaluation standards and processes and is published on SDC's webpage:
